

JAI SHANTH

+91 70108 21732 | jaishanthlenin@gmail.com | Tamilnadu, India | LinkedIn | GitHub | Portfolio

Aspiring Software Development Engineer | Computer Science Undergraduate | Data Structures & Algorithms | Backend Development | AI & Machine Learning Enthusiast

EDUCATION

Kumaraguru College of Technology
Bachelor's, Computer Science

September 2024 - November 2028
GPA: 8.04

EXPERIENCE

Forge Innovation & Ventures

ProtoSem Intern

July 2026 - Present

Coimbatore, TN, India

- Selected for ProtoSem – ASADI, an industry-driven AI program by Forge Innovation & Ventures.
- Collaborating with mentors and multidisciplinary teams to develop real-world AI solutions.
- Building hands-on expertise in autonomous systems, software development, and problem-solving.

PROJECTS

Digital Fraud Detection System

November 2025 - December 2025

- Developed a machine learning-based fraud detection system to identify fraudulent digital payment transactions with high accuracy.
- Implemented Logistic Regression, Random Forest, and XGBoost models with SMOTE for handling imbalanced datasets.
- Achieved a ROC-AUC score of 0.9788 using XGBoost and evaluated performance with precision, recall, F1-score, and ROC curves.

Sepsis Early Detection System

February 2026 - March 2026

- Developed an AI-powered sepsis prediction system using XGBoost to assess patient risk from vital signs.
- Built a Flask-based web application with an interactive dashboard for real-time risk prediction and visualization.
- Applied data preprocessing and model evaluation techniques to deliver an accurate and scalable healthcare solution.

Academic Management System

June 2025 - August 2025

- Developed a full-stack academic management system using Flask, MySQL, HTML, and CSS to streamline academic operations.
- Implemented modules for student, faculty, course, attendance, examination, and result management with secure admin authentication.
- Designed a responsive web interface and integrated a relational database for efficient data management.

SKILLS

Skills: Python, C/C++, HTML/CSS, SQL

Frameworks & Libraries: FastAPI, Pandas, React, Scikit-learn, NumPy

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, Docker, Linux/Unix, VS Code

CERTIFICATIONS

- Completed the DBMS Fundamentals and Advanced Concepts Course from Scaler Topics.
- Completed the NumPy and Pandas Python Course from Infosys Springboard.

ACHIEVEMENTS AND ACTIVITIES

- Earned a Merit Certificate in the Edge AI Workshop utilizing NVIDIA Jetson Nano.
- Solved complex algorithmic challenges on LeetCode as an active problem solver.
- Developed a blockchain-based prototype during the U & Me Hackathon.
- Achieved 8th Rank and secured a spot in the Top 25 shortlist at MLFest (KCT).
