Education

Bachelor of Engineering in Computer Science and Engineering

Kumaraguru College Of Technology, Coimbatore

Expected Graduation: 2028

CGPA: 8.01

Delhi Public School, Coimbatore — *Higher Secondary Certificate*

Year of Completion: 2024

Score: 83%

Projects

Digital Fraud Detection System Python · XGBoost · Random Forest · Scikit-learn

- Developed a machine learning-based fraud detection system for digital payment transactions.
- Implemented real-time fraud prediction with imbalanced data handling techniques.

Sepsis Early Detection System Python · XGBoost · Flask

- Built an ML-powered sepsis prediction system using patient vital signs and clinical data.
- Developed an interactive dashboard for real-time risk assessment.

Academic Management System Flask · MySQL · Python · HTML/CSS

- Developed a full-stack academic management portal with authentication and role-based access.
- Implemented modules for student, faculty, attendance, course, and examination management.

Automatic Lamp for Intruder Detection Arduino · PIR Sensor

- Designed an Arduino-based motion detection system for automated lamp activation.
- Implemented PIR sensor integration for intruder detection and alert triggering.

Skills

Programming

Python, Java, SQL, C++

Web Development

HTML, CSS, Flask

Database Management

MySQL

Version Control

Git, GitHub

AI & Machine Learning

Computer Vision, Data analysis

IoT & Embedded Systems

Arduino, Raspberry Pi

Achievements & Activities

- Completed a **Machine Learning Internship at Launched**, gaining hands-on experience in data preprocessing, model development, and machine learning workflows.
- Awarded a Merit Certificate at the 3-Day Edge AI Workshop using Jetson Nano.
- Active problem solver on LeetCode and HackerRank.
- Participated in the U & Me Hackathon (CIT College), developing and presenting a blockchain-based prototype solution.
- Secured **8th Rank** and was shortlisted among the Top 25 participants in MLFest, organized by **iQube**, Kumaraguru College of Technology.
